## HOUSEWORK BURDENSOME

Lady in Texas Seeks Relief, and Outlines Her Plan in Interesting Letter.

Houston, Tex.—"For five years," writes Mrs. L. Fulencheck, 2417 Tauckberry Street, "I suffered with pains all over, especially in my back and side, and was so weak I could hardly do my housework. A friend told me of Cardui. Since taking it I feel so much better! Now I can do all my housework and am not bothered with pains at all. Cardui has been a wonderful help to me."

Pains of any kind, especially backache or pain in the side, are generally signs of womanly trouble.

Weakness and misery are signs that you need a tonic.

Cardui, the woman's tonic, has proven especially beneficial in such cases, whether for pains from too much walking, standing, stooping or for general female weakness.

Cardui does not relieve by deadening the nerves, but acts permanently by building up the general strength where it is most needed and restoring the system to health.

Cardui has helped thousands of weak women during the past fifty years. It will surely do for you what it has done for them.

Your druggist (and 25,000 others) sell Cardui.

## ONLY "HEALERS" AT THE DEATHBED

Relatives of Miss Bridgers Claim Lack of Attention as Cause of End.

(Special to The Times-Dispatch.)

Wilmington, N. C., November 10.—Following close upon its break with the mother church on account of professional matters, Mrs. Augusta E. Stetson, the Wilmington Christian Science Church received a severe blow today when Miss Mary Bridgers, head of the church here, died of supposed typhoid fever. She had been sick for several days with fever, following a fall she sustained, and there had been rumors of her critical illness, but these were denied apparently with reason, and she died this morning at the residence of a friend, with whom she made her home. Only several "Healers" were present when she came, her relatives not being advised in time to reach her death-bed.

Her sister, Mrs. Preston L. Bridgers, a prominent society leader here, declares that neglect was the cause of her sister's death, a physician never having been called in, and charges that the true facts of the illness were kept from relatives. She had taken charge of the remains, and the funeral will likely be conducted from the Episcopal Church.

Miss Bridgers had been the Christian Science leader in Wilmington for fifteen years, and had built the handsome church here. She was a friend, with whom she made her home. Only several "Healers" were present when she came, her relatives not being advised in time to reach her death-bed.
